

Limozoft

The modern limo & chauffeur dispatch platform — built this decade.

One flat price. Same-week launch. Web booker, passenger app, chauffeur app and dispatch console — every plan, no add-ons.

Best for 1–50 vehicle fleets	Setup Same week	Contract Month-to-month	Trial 14 days, no card
--	---------------------------	-----------------------------------	----------------------------------

What's inside

01 What Limozoft is

The four surfaces of a modern chauffeur operation.

02 Who it's for

Fleet profiles and solution fits.

03 Feature list

Everything included at every price tier.

04 Pricing at a glance

Flat, transparent, no add-on billing.

05 Switching from Limo Anywhere

Migration path and timeline.

06 Book a demo

Next steps.

Four surfaces. One operation.

Legacy platforms sell each of these as a separate add-on. Limozoft ships them together, on one flat plan, from your first day on the system.

Web Booker

Embeddable, mobile-first booking widget with instant quotes for airport, hourly and point-to-point. Card capture, saved payment methods, Apple/Google Pay, and full brand white-labelling.

Passenger App

iOS and Android app — live ETA and driver tracking, chauffeur and vehicle details, receipts, one-tap rebooking of favourite trips.

Chauffeur App

One-tap navigation with live traffic, digital signature, tips, receipts, and live status pings back to dispatch (on the way · arrived · POB · done).

Dispatch Console

Real-time map, drag-and-drop assignments, auto-assignment with conflict detection, flight tracking, farm-in / farm-out, corporate invoicing — the entire operation on one modern screen.

Built for limo & chauffeur operators.

Limozoft is limo-first — no taxi, no ride-hail, no food delivery diluting the workflow. That focus is what lets us ship every feature on every plan.

Small fleets (1–15 vehicles)	Flat pricing that doesn't punish you for being small. Live in a week, no enterprise sales cycle.
Airport transfer operators	Flight tracking, meet & greet workflows, FBO pickups and terminal logic built in.
Corporate chauffeur	PO capture, cost centers, monthly consolidated invoicing, duty-of-care workflows, branded booking portal.
Wedding & events	Multi-stop itineraries, hourly-with-minimums, manifests, group movements — the paperwork done for you.
Black car service	Pre-arranged executive transport with the tools US operators expect.

Everything included, every plan.

The full feature set. Not a comparison chart with checkmarks missing on your tier — one plan, everything on.

Dispatch & operations

- Real-time map with every vehicle and job
- Drag-and-drop dispatch board
- Auto-assignment with conflict detection
- Flight tracking & automatic pickup adjustment
- Farm-in / farm-out with GNet-compatible sharing
- Multi-dispatcher, role-based permissions

Bookings & rider experience

- Embeddable booking widget (white-labelled)
- iOS & Android passenger app
- Instant quotes: airport, hourly, point-to-point
- Saved cards, Apple / Google Pay
- Live driver tracking, receipts, rebooking

Chauffeur tools

- Chauffeur app with turn-by-turn navigation
- Digital signature, tips, receipts in-app
- Live status: on the way · arrived · POB · done
- Trip sheets, notes, passenger contact

Billing & corporate

- Corporate accounts with unlimited sub-users
- PO number & cost-center capture
- Monthly consolidated invoicing
- Duty-of-care notifications & safe-arrival pings
- Automated statements, receipts, refunds

04 · Pricing

One flat price. Everything on.

No add-on tier for a branded app. No overage for SMS. No enterprise gate for corporate billing. Legacy pricing pages hide add-ons that push real cost 20–50% over sticker — Limozoft is one number.

Plan	Best for	Monthly (USD)
Starter	1–5 vehicles	\$99
Growth	6–15 vehicles	\$149
Fleet	16–30 vehicles	\$249
Fleet+	31–50 vehicles	\$349

All plans include every feature listed on page 3. Month-to-month, cancel anytime. Annual plans include free migration from Limo Anywhere and 2 months free.

05 · Switching

From Limo Anywhere in a week.

Day 1 Discovery call. We audit your current setup, corporate accounts and rate rules.

Day 2–3 Data migration: customers, reservations, corporate accounts, rate cards.

Day 4 Dispatcher training (60 minutes). Booking widget embed on your site.

Day 5 Chauffeurs onboarded on the driver app. Parallel-run with your old system.

Day 6–7 Go live. Ongoing support included at no extra cost.

Book a demo. Be live this week.

We keep demos short (30 minutes), show your fleet on real data, and give you a same-day quote. No commitment, no long deck, no sales chase.
